

## TRAX: A COMPETITIVE ADVANTAGE

The only technology-focused freight audit and payment solution with global, multi-modal capabilities

### WHY ENTERPRISES CHOOSE TRAX:

**Enterprise-grade, modern platform disrupting a fragmented market comprised** of small regional vendors with limited technology capabilities and larger low-tech service providers

**End-to-end, feature-rich Transportation Spend Management (TSM) technology** that addresses the entire freight audit, payment, and spend management lifecycle

**Differentiated, multi-modal capabilities** (i.e., not parcel-focused) enabling full visibility across all transportation spend

**Powerful spend intelligence capabilities** including advanced reporting, insights, variance analysis, and modeling

**Local presence in key markets spanning five continents** enables high-level of service to support a global customer base

**White-glove expert advisory and sourcing services** including contract reengineering and optimization

**Innovative B2B payments automation and supply chain finance** capabilities

### THE TRAX ADVANTAGE

**Differentiated TSM Technology**

**Multi-modal Focus**

**Global Services Capabilities**

*The leading non-bank vendor of scale in a highly fragmented market with differentiated technology, payments automation, and data capabilities*

# BEST-IN-CLASS, ENTERPRISE-GRADE FREIGHT AUDIT AND DATA INTEGRATION TECHNOLOGY

Comprehensive, Cloud-Based Transportation  
Spend Management Platform

## Rate Manager

Centralized information library that allows real-time visibility into all contracted rates by mode, region, carrier, logistics service provider (LSP), and business unit.

## Accrual Manager

Solution that enables organizations to leverage historical data to more accurately accrue shipping costs at the time of shipment, minimizing variances between accrued and actual freight costs.

## Match Manager

Enterprise integration solution that brings together disparate shipment and carrier data, inventory and sales order data, and cost data, into a single transportation spend database.

## Claims Manager

Solution that investigates, files, and resolves carrier performance, including lost and damaged claims and funds recovery, while providing transparency and reporting at each step.

## Data Compliance Manager

Data management solution that extends master data management and harmonization controls to the end user, giving customers control of their data governance and compliance.

## RFX Manager

Rate bid management collaboration solution for issuing bid opportunities, evaluating responses, and accepting bids across all modes and lanes, including spot quotes.

## Carbon Emissions Manager

Solution for tracking and benchmarking actual carbon emissions across a transportation network – all modes, vehicles, and regions – while integrating with broader ESG reporting.

## TraxPays & TraxPays+

Invoice payment automation and trade finance solutions that allow carriers to be paid when and how they wish, while enabling organizations to achieve their working capital and DPO objectives.

## TRAX BY THE NUMBERS

- **30** Years in Business
- **#1** Provider of Global FAP
- **\$24B** in Transportation Spend
- **21,000** Global Carriers
- **40+** Currencies
- **128** Countries
