

RATE CONTROL

Take Control of your Rates at a Global Scale.

CENTRALIZED RATE REPOSITORY

Store all contracts, rates, amendments, and documents in a single, version-controlled system with audit history.

ADVANCED RATE SEARCH & RETRIEVAL

Instantly search and compare rates across carriers, lanes, charges, and terms using intelligent filters and subscription tools.

AUTOMATED WORKFLOWS & EXPIRATION ALERTS

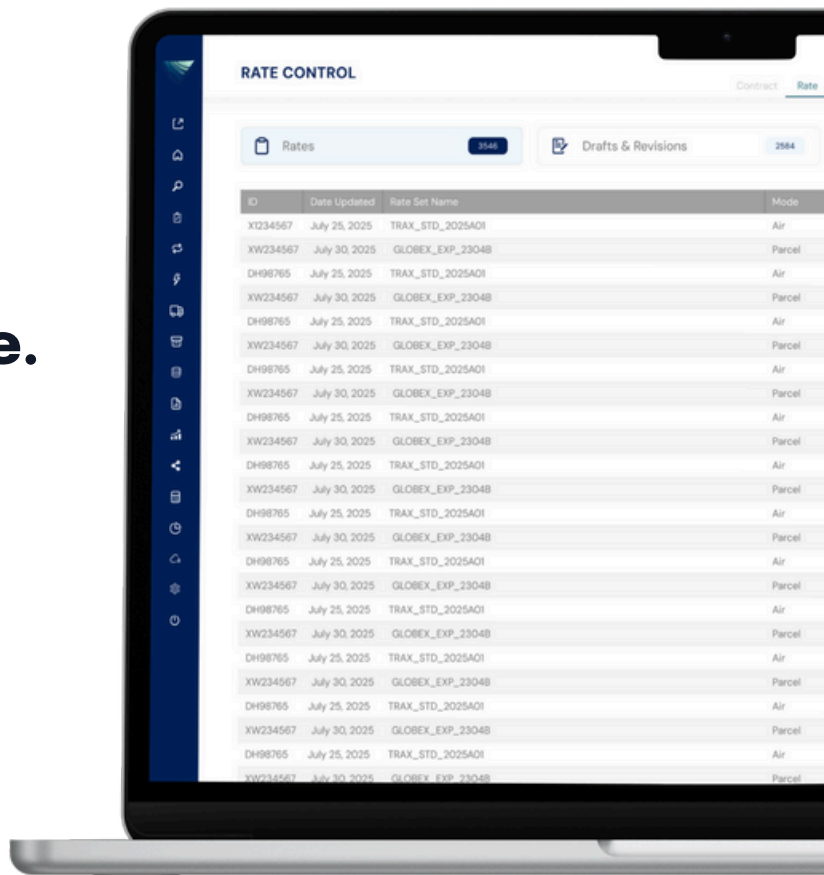

Manage rate submissions, approvals, and renewals with AI-powered workflows, expiration notifications, and validation rules.

INTEGRATED SPOT QUOTE MANAGEMENT

Handle spot quotes within the same system as contracted rates—complete with documentation, approval flows, and performance tracking.

SEAMLESS SYSTEM INTEGRATION

Connect to your TMS, ERP, and audit tools with automated data exchange, custom exports, and direct exception management access.

All your rates and contracts in *one platform*.

Trax's Rate Control platform consolidates every contract, rate, and supporting document in one central repository with a complete audit history.

Unlike fragmented systems, our AI-powered platform provides single-source visibility across all modes and carriers with automated workflows, expiration alerts, and seamless integration with your existing tech stack.

Turn Rate Control Into a Strategic Advantage

Zero Missed Expirations

40% Reduction in Billing Disputes

Faster Sourcing Decisions

Enhanced Stakeholder Collaboration
