

FREIGHT AUDIT AND PAYMENT SOLUTION

Powered by Transportation Spend Management

Trax is the global leader in **Transportation Spend Management and Freight Audit and Payment** solutions. Our technology suite empowers organizations with globally complex supply chains to have greater visibility and control of their transportation costs across all modes and regions, giving them enterprise-wide efficiency, maturity, and value.

TRANSPORTATION SPEND MANAGEMENT

Driving efficiency, empowering visibility, and enabling cost savings

10%

Up to 10% of the cost of goods sold in global enterprises is spent on transportation and logistics

25%

25% of freight invoices have some degree of error, making accurate and timely accounting, reporting, and payment nearly impossible

COST FOR INVOICE PROCESSING

Without Outsourcing

\$10.74 to \$19.49 per invoice

With Outsourcing

\$6.26 industry average per invoice

With Trax

\$4.45 average per invoice

4.5% TO 8.5%

and Freight Audit and Payment with Trax Technologies*

BEST-IN-CLASS, ENTERPRISE-GRADE FREIGHT AUDIT AND DATA INTEGRATION TECHNOLOGY

Comprehensive, Cloud-Based Transportation
Spend Management Platform

Rate Manager

Three-way collaboration platform that allows real-time visibility into all contracted rates by mode, region, carrier, logistics service provider (LSP), and business unit.

Match Manager

Enterprise integration solution that brings together disparate shipment and carrier data, inventory and sales order data, and cost data, into a single transportation spend database.

RFx Manager

Rate bid management collaboration solution for issuing bid opportunities, evaluating responses, and accepting bids across all modes and lanes, including spot quotes.

Data Compliance Manager

Data management solution that extends master data management and harmonization controls to the end user, giving customers control of their data governance and compliance.

Carbon Emissions Manager

Solution for tracking and benchmarking actual carbon emissions across a transportation network – all modes, vehicles, and regions – while integrating with broader ESG reporting.

Accrual Manager

Solution that enables organizations to leverage historical data to more accurately accrue shipping costs at the time of shipment, minimizing variances between accrued and actual freight costs.

TraxPays & TraxPays+

Invoice payment automation and trade finance solutions that allow carriers to be paid when and how they wish, while enabling organizations to achieve their working capital and DPO objectives.

Claims Manager

Solution that investigates, files, and resolves carrier performance, including lost and damaged claims and funds recovery, while providing transparency and reporting at each step.
